Getting to La Herradura:

After leaving Malaga airport you come directly onto the N-340 highway. Drive direction: Granada, Motril, Nerja, Almeria. After about 4km exit to the right, over the bridge and carry on in the direction of "Albacete, Motril, Almeria". After the Malaga ring road, the N-340 runs parallel to the coast. Exit the Highway at "La Herradura".

Drive along the N340 until you see a traffic-light and a sign for "La Herradura", - go right and right again down towards the beach.

In the province of Granada the Costa del Sol (Province of Malaga) is called "Costa Tropical" this is due to the micro climate enjoyed only on this part of the cost.

Getting to Casa Flow and Cubo del Mar:

Usually we will have arranged a spot near the house by email where you will find the keys or you will meet with Marijke or Cees.

Once at the beach drive right keeping the sea on your left. At the end of the beach road next to the "Nuevo Camping" restaurant you will find a small road leading off to the right, follow it for 200 meters uphill until you can come to a smaller road on the left - towards "EL Enclave".

30 meters later there is a driveway with a black metal door on your left, House number 1.

You have arrived! WELCOME!

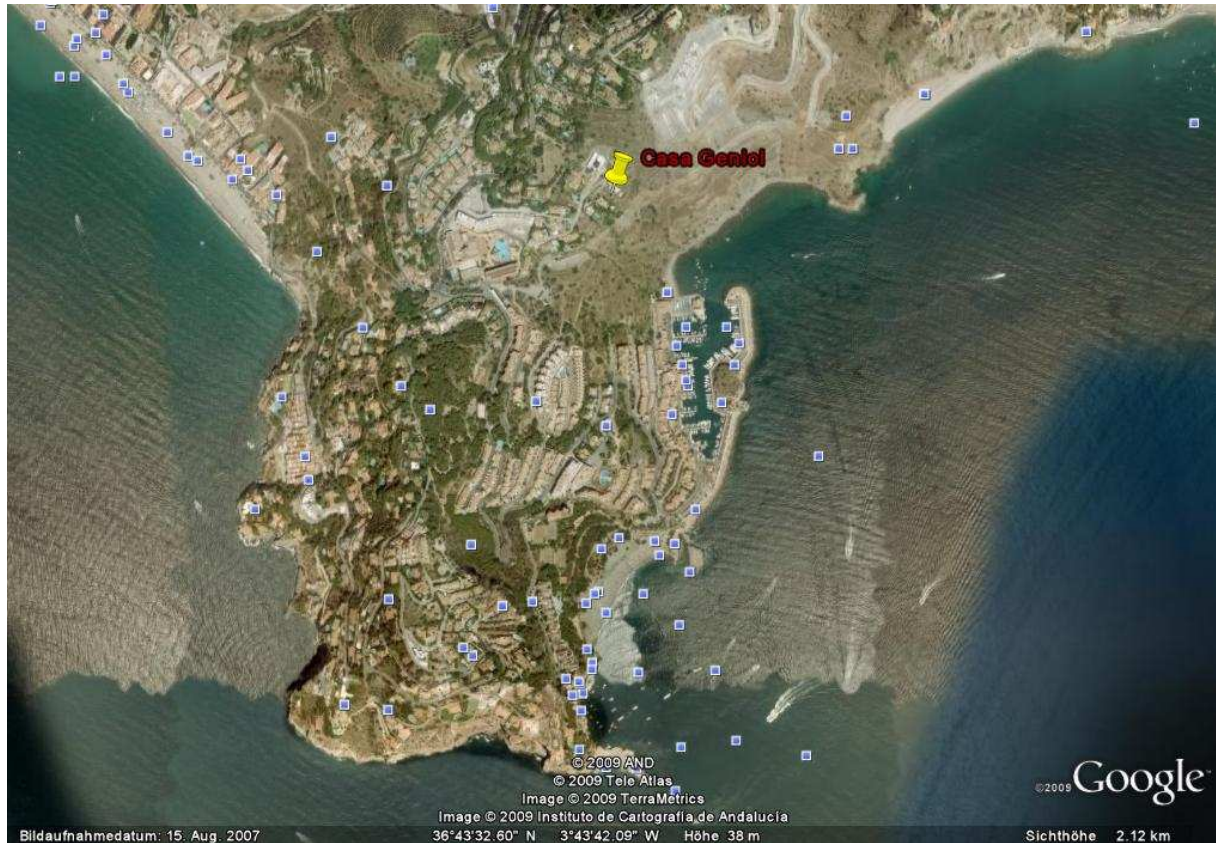

We recommend closing the garden-door at night.

When you enter the house you will find a table with information and some instructions you might need. Have a glass of wine on the terrace!

Getting to Casa Geniol:

Once at the beach drive left and up the Punta de la Mona until you find "Hotel Best Alcazar". Ask for it. Before you get to the hotel go left upwards around the back of the hotel. Drive all the way around it and then approx. 100 meters down. There the road parts and you have to go left again. After 40 meters you will find a parking lot above Casa Geniol. Drive down to the house and park in the carport.
